

# Register now for online diabetes courses

Live courses offering accredited diabetes training to healthcare professionals in Kent and Medway.

There are different funding streams across Kent and Medway for PITstop courses at foundation and advanced level for HCPs, please contact us if you are unsure.

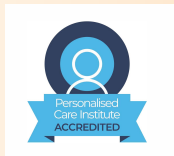

**HCA**PITstop™  
Diabetes training

## 1-day HCA PITstop course

**FREE** registration at [www.invictahealth.co.uk](http://www.invictahealth.co.uk)

For non-registered practitioners working in General Practice, already involved or keen to become involved in the provision of care for people at high risk of diabetes and type 2 diabetes.

Pre**PIT**stop™  
for Diabetes

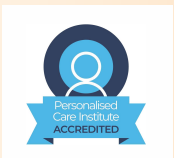

## 3-day PrePITstop foundation course

**FREE** registration at [www.invictahealth.co.uk](http://www.invictahealth.co.uk)

GPs, fee applies please contact [admin@pitstopdiabetes.co.uk](mailto:admin@pitstopdiabetes.co.uk)

The 3-day PrePITstop course focuses on the essential diabetes care every Practice team needs to provide, including the oral diabetes medication pathway. Suitable for healthcare professionals wanting to become involved in diabetes services or those wanting to reflect on current diabetes services and improvements within the practice/PCN.

Pre**PIT**stop™  
for Diabetes

## 1-day PrePITstop key message course

**FREE** registration for GPs at [www.pitstopdiabetes.co.uk/shop](http://www.pitstopdiabetes.co.uk/shop)

Enter the **KENTPREPITSTOP** code at the checkout

The 1-day PrePITstop course takes key messages from the 3-day course and delivers them in a 6.5-hour programme. Suitable for experienced clinicians wanting an update or GPs not directly involved in diabetes care who recognise the need for a general overview in practice-based services.

Pre**PIT**stop™  
for Diabetes

## 4-hour PrePITstop update course

**FREE** registration at [www.invictahealth.co.uk](http://www.invictahealth.co.uk)

GPs, fee applies please contact [admin@pitstopdiabetes.co.uk](mailto:admin@pitstopdiabetes.co.uk)

This 4-hour update focuses elements of tier 1 diabetes care (practice-based) identified in the 2021, NHS England endorsed, document Best Practice in the delivery of diabetes care in the Primary Care Network (Ali et al 2021).

For HCPs who have already attended a foundation course.

**PIT**stop™  
for Diabetes

## 2.5-day PITstop advanced course

**FREE** registration at [www.pitstopdiabetes.co.uk/shop](http://www.pitstopdiabetes.co.uk/shop)

Enter the **KENTPITSTOP** code at the checkout

Focuses on assessment, initiation of GLP-1 and insulin for people with type 2 diabetes. Suitable for healthcare professionals already experienced in providing a diabetes service.

**2026 course dates:**

- 23rd, 24th June and 15th July 2026
- 9th, 10th July and 11th September 2026
- 16th, 17th July and 8th September 2026

More dates available online

**Advanced CPD available for past 2.5-day PITstop course students. Contact PITstop for more information.**
