So far, so good

Shorter days, cooler temperatures. Summer's gone, but we're still here to help you expand your skills and confidence.

Use this newsletter to explore how CPPE can help you grow as a professional.

As ever, send any questions to one of our regional tutor team.

New launches

Novel courses and training, straight off the shelf

Fundamentals of supporting older people to age well

e-course

Online training for pharmacists and pharmacy technicians, covering support and person-centred care for older people. Learning how to apply the 5Ms of geriatric medicine, and opt

imise treatments.

Vaccination: Delivering a high-quality service

e-learning

Get ready for the 2026/2027 flu immunisation programme with this up-to-date online learning.

Respiratory tract infections

Face-to-face workshop

An in-person workshop designed to help pharmacists and pharmacy technicians adopt a structured approach in safely prescribing for respiratory infection. Part of our *Prescribing perspectives* series.

Dermatology: Improving confidence in assessing and managing skin conditions

Online workshop

Dermatological presentations can be challenging to recognise and differentiate. That's why this workshop is designed to boost your aptitude for assessing a range of skin conditions.

Type 2 diabetes: Optimising safe and personalised management

Short learning

Part of our Optimise learning series, this is a 1-hour-long group learning session well-suited for the workplace. Use it to level-up your team in delivering safe, effective, person-centred, individualised care for people living with type 2 diabetes.

News and media from CPPE

What we're up to this month

Podcast: Neighbourhood health and what it means for pharmacy

Are you subscribed to *Pharmacy Conversations* yet? If not, why not? In the latest episode we tackle some of big questions around the evolving concept of neighbourhood health. How should we balance system priorities and personalised care? What matters most to patients?

Hesitant about AI? You're not alone

In his latest blog, CPPE's director considers is the arrival of AI in the workplace squares with pharmacy's need to keep pace with changing technology.

Explore our news page for more updates, featuring awareness day tips, thoughts from our director and more.
